

News From Your TOWN HALL

If nature judgment, background of professional experience, a will to make a good job of it and a lack of prejudicial alliances locally mean anything—and we believe they do—Belle Glade has a very able and efficient police force.

Chief Mock, a father of two boys and years of experience in South Florida in police office work gives the impression of the right man for the right place.

Officer Payne, a Georgia cracker, with wide police experience and a man of mature judgment, has lived in the town long enough to acclimate himself to its problems.

Officer King is a Choctaw boy familiar with the Lake and surrounding country and a background of police experience.

Indications are that Mayor Baker has made a major contribution to the community—in its police force.

A three hundred pound applicant for the job of policeman is reported to have been around the Town Hall Wednesday and Chief Mock is giving him the once over.

Up to Commissioners meeting Wednesday night there was one applicant for the position of Water Clerk.

Mrs. Williams is leaving next Tuesday, so there is no more time left to train her successor.

A combination steno-bookkeeper with years of experience cannot step into this job cold and do it justice, as there simply are details involved with it that must be learned by experience. So, if there is any confusion within the next few weeks in the water department's records, it will not be our fault. War conditions and energetic human endeavor will do the best job possible.

Head people were conferring with the 17th Fathers this week and it is understood that a practical plan has been submitted for financing any construction of the necessary additions to the water plant. This must rest for the time being, as the Commission somewhat.

There are two chief considerations concerning our water plant: (1) immediate relief by increasing the capacity of the present plant, and (2) permanent construction with a water line to the Lake where proper water is available.

Yardstick For Car Buyers Suggested

Tampa—(RNS) Prospective buyers of used cars in connection with new TPA anti-speculative laws will find the "yardstick" suggested very helpful. Purchasers are advised to ask the following question:

Engine—Does it start quickly and idle smoothly and quietly? Does exhaust smoke indicate excessive burning of oil? Does the engine show any signs of oil and water leaks? Does it ping when accelerating moderately? Are the muffler and tail pipe in good condition?

Body—Are the fenders, body and other sheet metal parts free from cracks and dents? Is the body in good condition? Do the upholstery and floor mats show excessive wear? Is the glass chipped or broken and are there any indications of water leakage under the windshield, door or door glass? Does the window mechanism work smoothly and the door trunk locks operate properly? Do the bumper, hub caps and grill show signs of damage?

Electrical—Is the battery the right size and does it test properly? Does the generator charge? Has the starter good cranking speed? Do all of the lights burn and are the reflectors clean and bright?

Tires and accessories—Do the tires, including the spare, have cuts and the sidewalls worn? Do all dash instruments, radio, heater and windshield wipers operate properly?

Road Test—Test on a road demonstrating the clutch, shifting, steering, brakes, rear axle for quiet operation, spring and shock absorber control, oversteering and motor operation for acceleration and smoothness at low and high speeds.

Belle Glade Boys On Saipan Invasion

Two Belle Glade boys, both Marines, are members of the 4th Division of Marines which is one of two divisions of Marines that killed 15,000 Japs on Saipan and took 1,000 prisoners—a small enough proportion, we'd say.

Herbert Priest and Carol Warren are two high school boys who are in the same outfit that is giving the Japs a pinch, where it does the most good for you and me.

No recent news has come from the boys, but in the circumstances no news is good news—if they weren't still going good, news would be wired immediately.

We are sure the local boys will demolish their share of mon-loy enough to acclimate himself to its problems.

Vacation Bible School To Start On Monday

The daily Vacation Bible School will open Monday for the 11th consecutive year under the direction of Rev. Jay O. Jamieson. All children of the area between the ages of 4 and 14 years are eligible.

The usual classes will be held in handwork such as sewing for the girls and woodcraft for boys, music, Bible study, recreation and games. The school will be held five days each week from 9:00 to 11:45 for two weeks.

Mr. Jamieson will have charge of the technical work and the boys will be held of the carpenter's shop. Mr. Jamieson will teach the experts; Mrs. Bergman, the primary department; Mrs. Morris, the junior and Miss Joy Lou Bailey and Miss Eleanor Kidd will have charge of the music. Other teachers have not yet been assigned. The older pupils of the intermediate department will assist with the young-ones.

Our Celery Farmers Subsidize Experiments At Local Station

Glades celery growers, at a meeting Thursday night, agreed to continue the use of the celery crate now being tested instead of the new one containing approximately 11 1/2 bushels of celery. It was felt that the time to prepare to consider any changes in crate sizes or shapes when it is uncertain whether manufacturers can make enough to fill the need with the present set up.

Also, after considerable discussion, it was decided to test to the suggested price ceiling of \$3.25 per crate. Distinctly there was no objection to the \$3.25 ceiling if there was any assurance that the price of \$3.25 could be assured, or even if a floor of \$2.25 or \$2.50 were put on it. A period of 30 days was set to \$3 celery are spectacular and beneficial to one or two growers but certainly it doesn't average out.

Referring to action taken at an earlier meeting of the Palm Beach County Celery Growers Association, a discussion was had about some proposed experimental work on virus diseases at the Experiment Station with Dr. Townsend.

Those present at a recent meeting agreed to donate to a fund to be used exclusively for celery experiments one half cent per package of celery shipped. Secretary Van Landingham reported that a substantial sum

County Receives \$279,000 In Public Assistance This Year

Jacksonville—(Special) Palm Beach County recipients of public assistance were paid \$279,036.50 in cash grants during the fiscal year that closed on June 30, according to an announcement today from the state office of the State Welfare Board.

Payments, by categories, were as follows: cash grants, \$279,036.50; aid to the blind \$15,096.50; aid to dependent children, \$7,530.50.

Although the public assistance payroll was the largest for any year since the state-federal program was begun in July, 1937, it was considerably larger for the fiscal year ahead. State Welfare Commissioner Leland W. Smith said, and the reason for this, he explained, is that all funds resulting from increased state financial participation were not available for the full year, nor was matching federal funds in like amount.

Wanted To Buy 10 Million Pounds Dry Ramie Fiber

Experts Believe That Ramie Has Expansive Future as a Glades Crop

W. D. Outman, Washington representative of the Florida Resources Development Commission, which is under Commissioner Mayo's office, led a group of men to the Glades Friday to witness dehorting of ramie in the thicket of a Ramie field at the Prison Farm, and to witness for themselves the growing plant at different ages, as well as the planting of the crop.

Commissioner Mayo who has recently given instructions that 400 acres be planted at the Prison Farm was present to greet these men and witness the trial of the Short dehorting machine.

Capt. Alex Kidd, Marine Engineer and Assistant Gen. Manager and Dr. R. C. Carswell, Chief Research and Consultant Engineer, both of the especially Manville Corporation; Mr. Willis Waldo, of the Research Department of the W.P.A., J. M. Dumas of the Newport Corporation, and Dr. Horne of the U. S. Sugar Corporation were the technical and professional experts who came to find a source of Ramie.

The Johns Manville Corporation is interested in the fibre for cordage, fire hose and machine packing and is willing to make a contract for the delivery of 10,000,000 pounds during 1945 to fill orders already on hand.

When asked how he knew of the virtues of Ramie, Capt. Kidd, a former Navy man, and brother to the Admiral killed at Pearl Harbor, said "By subjecting the various articles mentioned to the Navy test. Why Ramie's superior tensile strength, its resistance to abrasion, lack of mildew and resistance of its strong either wet or dry are some of its virtues of immediate interest to us when mixed with wool, you will have a strong durable cloth subject to pressing and not baggy and stretchy."

The Captain told of the 1000 hour test by the Navy of packing made of ramie fiber, which present materials showed practically 100 per cent deterioration and waste as against the practically unaffected packing made of Ramie.

These men came seeking a source of Ramie fiber for one industry—and there are hundreds of them in West Palm Beach in the praise of the prospects of ramie fiber from the muck lands. The Newport Company, the U. S. Sugar Corporation, the State of Florida and the Johns Manville Corporation command enough finances and engineers of ability, and the need is so great that ramie as a major crop of the Glades seems assured.

Although the announcement is available it is indicated that the dehorting of ramie by machinery and in such volume as to make it practical is an assured operation. American ingenuity and the needs of war seem to have crystallized the idea.

Do these wounds hurt you too?

Doesn't it tear your heart a little—the sight of these two American kids, hurt and tired, helping each other across the bloody fields of Normandy?

If it does, go out and buy another War Bond—now!

Right now—today—thousands and thousands of other youngsters like these are making the supreme military effort of this war.

Are you—here on the home front—making the supreme financial effort of this war?

You can only do so by buying more, and MORE War Bonds.

Buy your Invasion Bonds Today!

Less Than 50% Of E Bond Quota Sold In Belle Glade

July 31st. Last Day In The Fifth Bond Drive Sale

Although the total of the Belle Glade area's sales for the Fifth War Bond Drive has reached \$88,476.11, which is 10 percent above the "B" determined quota, we have failed by more than 50 per cent to reach our "E" bond quota. Our quota for the small bonds to be bought by individuals was \$110,000, while only \$51,756.25 have been sold.

The same general condition persists throughout the U. S. with a greatly over-subscribed total and a deficiency in the total sale of "E" bonds.

Smart money—banks, insurance companies, financial institutions and business houses—seems to have suddenly come to a great appreciation of the virtues of the government bond and moved the money into that market. The grand total of bonds purchased by individuals is astounding, however, and the average American has several bonds stored away for after-the-war use.

The bonds held by the two banks and the Federal Savings and Loan, together with business houses, aside from the hundreds of thousands held by individuals must total more than

of something like \$20,000 on streets, which is the most that has been done to the Town Streets since there has been a town. Some intelligence was used in the spreading of the money to furnish mail thoroughfares and from congested areas so that the farmers might get into town and out again with the least congestion with farm hands.

Commissioner Van Landingham has been Chairman of Sanitation and Building, and due to war restrictions less spectacular activities have been accomplished.

A decided improvement has been made in the sanitary conditions in the quarters both as to surface conditions and the installation of sanitary toilet facilities.

Recent acquisition of a Chief of Police and assistants has relieved Mr. Pennington, the Health Officer, so that practically all of his time can be spent on this important job to the community.

Adventist Church

Elder R. H. Libby, Educational and Young People's Missionary Volunteer Secretary of the Florida Conference of Seventh-day Adventists, will be the speaker at the 11 o'clock worship hour Saturday morning at the Glades Seventh-day Adventist church. School begins at 9:30 with Frank Franz in charge. The Young People's Missionary Volunteer Service begins at 7:15 p. m.

Resources Development Board Is Suffocated By Commissioners

Hub Spooner Is In Hospital In England Doing Well, Thank You

Helan Stollenberg Spooner has just received a letter from Hub written in his own hand giving more details of his injuries on D-day in Normandy.

It is to be deduced that because the letter is written by Hub his hands and eyes are okay. However, it was definitely stated that he had both legs broken and quite a collection of scrap iron scattered around in his body from shell fragments.

Hub seems to be doing well in a base hospital in England. If the record of army surgical and medical attention to date in this war is considered Hub will come back to us patched up and repaired "almost as good as new" and most probably without the possible permanent injury to nerves which a lot of the boys haven't escaped.

There's something to be proud of in that if he must undergo this war isn't over and most certainly other boys will come home not so fortunate as Hub, and Belle Glade has more than 300 chances that some of them will be front here.

Club Cancels August Session

The Home Demonstration Club conducted its regular monthly meeting at the community club house with Mrs. Thos. Breger presiding over the routine business session. The group voted to cancel the August meeting and plans were made for the next meeting to be held on September 21st at the club house when programs and work for the year will be discussed. Later the group will adjourn to the home of Mrs. Nell Seullen to inspect an exhibit of her fifty varieties of home canned vegetables and fruits.

Mrs. John Harmon was welcomed as a new member.

Mrs. Hugh J. Bratley was in charge of the program and took as her topic "The Mango Forum".

Her attending were Mrs. Fredlund, Mrs. Howard Hane, Mrs. Norman Hayship, Mrs. Tharvold Nelson and Mrs. Harbel Stallard.

Double Tennis Court Promoted By Lions

Jay Sample, Chairman of a special committee of the Lions appeared before the Rotary last Friday asking cooperation in sponsoring and building a double tennis court on the Town park property.

Mr. Sample reported a complete committee from his club active in raising funds and making plans for the actual construction.

The Rotary took immediate favorable action and agreed to appropriate several hundred dollars for a special fund to be used in the construction of several thousand dollars necessary for the courts.

It is a favorable sentiment for the carrying to completion of the project.

WHERE THE H... IS BELL GLADE?

Approximately seventeen persons visited Lakeland last week in attendance on a golf tournament, both men and women.

One of the local visitors reports that as the matches were formed and numerous threesomes left the tee, the continual announcement of these in the group was "Mr. and Mrs. So and So, from Belle Glade" seemed to irk some old gentleman and he finally wanted to know "Just where is Belle in the 'Belle Glade' of some big insurance of the

County Board Can't See Sufficient Reasons For Continuation of Work

The County Commissioners have decided that it will have no competition from an organization which is not a "legally constituted board . . ." composed of entirely too many dreamers and promoters in forwarding industry and agriculture in Palm Beach County—not with county funds anyhow.

Rather the Commission would "let Palm Beach County grow of its own merit". The Commission "doubts that a majority of them (members of the RDB) could be elected—by a vote of the people of Palm Beach County".

The vote snuffing out the life of its acknowledged illegitimate child was one rather of omission—2 to 2, with Mr. Poston absent. Our County Chairman was at the same place—Cheney—where Hanchey, J. P. Dergard and the N. Y. delegation were putting the sticks to Mr. Wallace, God Bless them, such wounds they inflicted on the County Commission seems to have been affected with abnormal growth and potentialities—because it is compared with large organizations in the following: the RDB or RDH or for the WPA, NRA.

At the same session where this official suffocation took place renewed vigor and robust health were breathed into two items as follows "County Park Fund \$30,000" and "Jail Building Fund \$50,000" one of which was not submitted to the voters and one of which was turned down by the voters.

The "Lions" driving the district of the dog that will be the dog yet—this is a new thing. The movement in its conception and sat by breathlessly to witness a miracle during its gestation period. The dog was a healthy and healthy life. The aura of goodwill, unselfishness and consideration for the backwoods was a new thing. The dog can't be changed.

It's refreshing, however, to have accomplished what was, to have been associated with some who acknowledge that we are a part of the county.

Petulance, inconstancy, jealousy and attending were the reason—we don't know, but we had a good try.

List of "dreamers and promoters" in the Glades area is given below. We are of the opinion that the same proportion of "conservative taxpaying business men" make up the other county-wide membership.

Joe Freshlund, J. K. Baker, A. K. Kirschman, Sam Chaudhry, Howard Hane, Roy Segre, Lawrence Hughes, Don Hillier, Joe Freshlund, J. H. Chambliss, W. P. DeMello, J. P. Dergard, Dennis Caudill, Frank Hobson, N. D. Lloyd, B. Elliott, Lou Betner, P. P. DeMello, L. L. Shirley, W. C. Bamford, C. A. Bailey, John Dulany, Thomas Forsee, George Royal, V. C. Denton, O. B. McClure, Paul Rardin, Luther Jones, Thurmond Knight, George Belk.

Quotations used in this article are from a publicly published statement of one of the Commissioners not denied nor questioned by any other commissioners.

Resolution By Other Commissioners

WHEREAS the County Board of Commissioners has received a petition from the Citizens of the County of Palm Beach, Florida, for the operation of the Palm Beach County Resources Development Board for the coming year, and
